PICKLEBALL MADNESS? – YES IT SURE IS! – THIS IS HOW IT WORKS! –

1. On the day, men's and ladies' names will be drawn consecutively from a hat and the partner you are drawn with will be your 'floating' partner for the event.
2. Games are played to 25 pts first with your 'floating' partner and then the **men** change sides and you play to another 25 pts, (this time with your new partner).
3. **Scoring is 'electric'**. i.e. every point counts, whether you are serving or not!
4. Once you have played the first 50 pts, you go on to your next scheduled game, starting off with your 'floating' partner, and changing partners after the first 25 pts. And so the games continue!
5. Everyone carries their own individual score. The winners will be the top men and top ladies with the highest score.
